PERFORMANCE TIP!

Enhance your system performance with a QuickByte hi-speed buffer.

FEATURES:
- Superfast data rates (30-65KCps) break the printer speed bottleneck with fast CPUs (Pentium/486)
- Data compression up to 70% increases RAM
- Plug into parallel printer port (Cen36F/M) or use as a booster to extend printer distance to 70ft
- Cascadable for easy memory expansion
- Includes 9vDC 100mA power Adaptor
